ERGOTEC® NINJA

Good News: The ErgoTec® NINJA Scraper System

UNGER proudly presents the new **ErgoTec® NINJA Scraper System** – a scraper system like no other: the perfect combination of **ErgoTec® NINJA Scraper** and a **ErgoTec® NINJA Holster**. Meet the first 2-in-1 scraper featuring the latest Unger innovation - a solid, rust resistant steel angle change mechanism that enables two working angles – 0° and 30°.

The scraper fits on telescopic poles for safe cleaning at height and locks securely on the **ErgoTec® Locking Cone**. Put simply, the new addition to Unger **ErgoTec® Ninja** family is the most advanced scraper for professional window cleaners.

NEW
Available from 02.06.2014

ErgoTec® NINJA SCRAPER

- **Flexible:** The working angle of the super solid, rust resistant steel mechanism can be switched between 0° to 30° with the push of a button.
- **Easy blade change:** New, extra robust slider exchange mechanism for blades. Protects the hand when changing the super sharp stainless steel blades.
- **Fits securely on UNGER telescopic poles.**
- **Compatible with new UNGER Premium Glass Scraper Blades Stainless Steel or UNGER Glass Scraper Blades Carbon Steel.**

Available in 2 sizes:
10 cm
15 cm

ERGOtec® NINJA

The ErgoTec® NINJA Holster Combo & Premium Stainless Steel Blades

UNGER ErgoTec® NINJA HOLSTER & SCRAPER COMBO

- **Fast and safe:** Lock the Scraper in the Holster in seconds, using **EasyClip** to secure the handle in place and prevent it from falling out.
- **Safe:** Durable solid plastic holster with stainless steel insert withstands frequent contact with sharp blade and protects the operator from cuts to legs and finger.
- Fits to any tool belt.
- **Compatible:** Holster compatible with most 10 cm and 15 cm scrapers on the market, flat or angled.
- Holster is also available to order individually (HT150).

Practical Holster for the Belt

UNGER PREMIUM GLASS SCRAPER BLADES STAINLESS STEEL

- **Longer lasting:** Dual-sided blades made from corrosion resistant 440A grade stainless steel which provides excellent edge retention and ensures that blades stay sharp for a long time.
- **Designed for speed and ease of use:** UNGER's new 440A stainless steel blades are fabricated specifically for superior cutting and removal of unwanted debris on glass. Each blade receives a precise honing process, creating a perfect cutting angle that is razor sharp and consistent, enhancing the speed and effectiveness of every scraper pass.
- **Usage:** Ideal for daily site glass clean up: paint, decals, tape, heavy soil/debris and construction clean up.
